

*A World of Natural Treasures*

## The National Aquarium

### *The Largest Aquarium in the Middle East!*

The National Aquarium Abu Dhabi is the largest aquarium in the Middle East and is home to 46,000 animals spread across 10 zones spanning from the tropical waters of the Pacific and freshwaters of the Amazon through to the frozen ice caps of the Arctic and the caves of the Mediterranean.

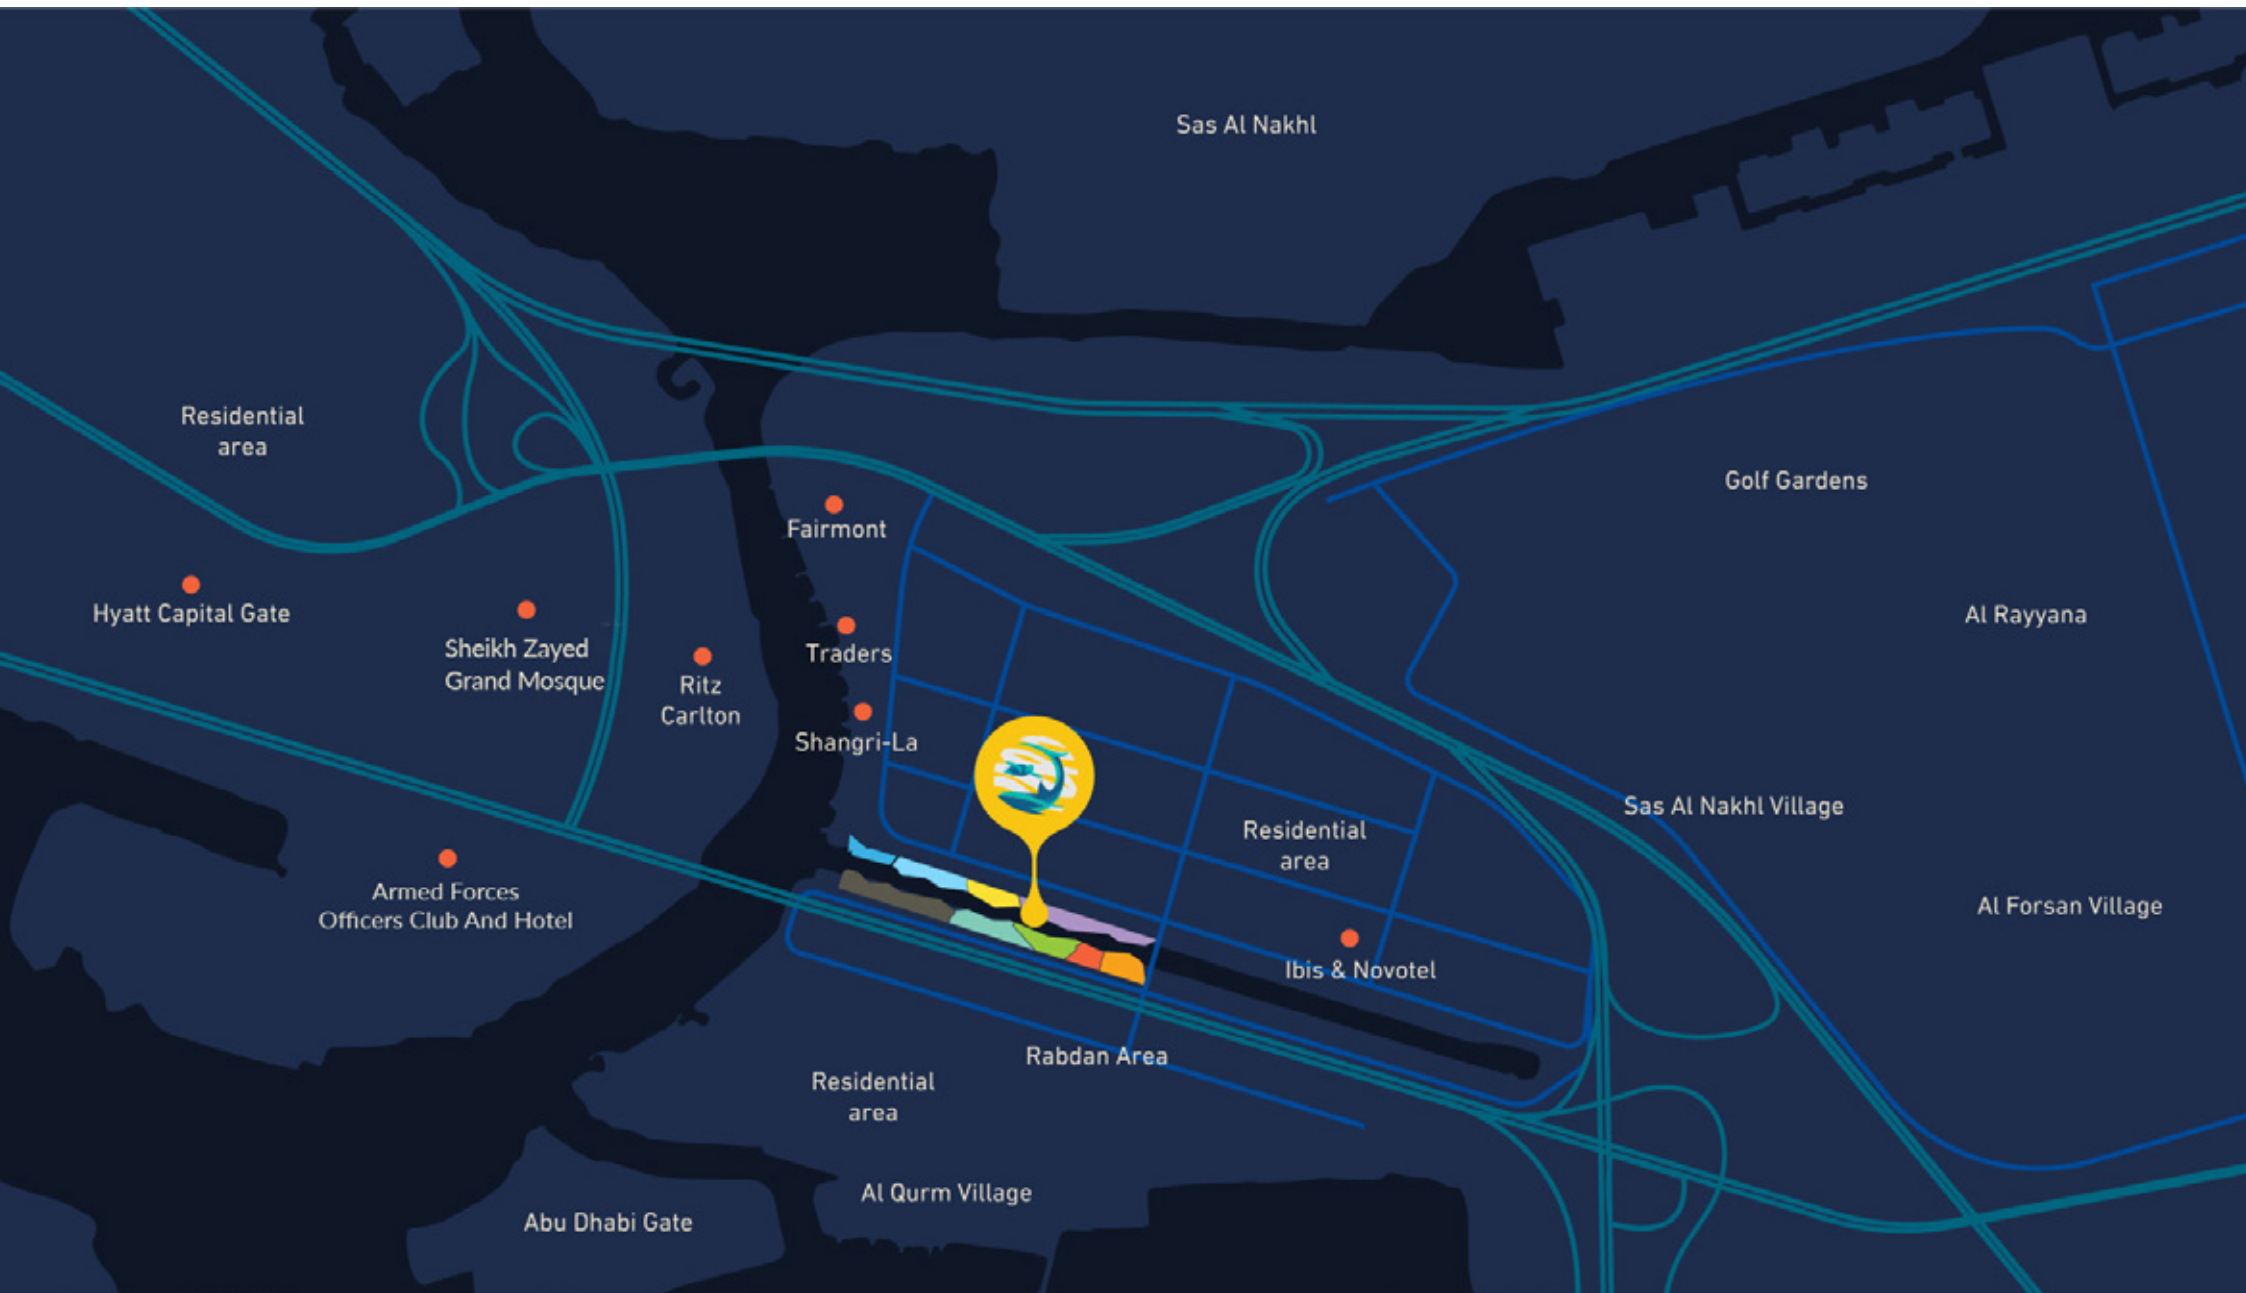

The ten-zone theme hosts more than 300 species. The aquarium houses more than 200 sharks and rays, representing 25 different species.

All of the animals are obtained according to CITES guidelines and are cared for by a team of 80 sea-life experts.

A whole department dedicated to education with a capacity to welcome 50,000 school children a year.

## The Location

### *A World of Natural Treasures*

Located along Rabdan Area, the historic natural waterway bordering the mainland, The National Aquarium is one of the 11 Anchors situated in Al Qana; which is set to be one of Abu Dhabi's most unique and iconic destinations.

Easily accessible from Abu Dhabi island and adjacent to the neighbouring five-star hotels, the development is in a prime location for both residents and tourists. With no high-rise buildings and towers in the immediate vicinity,

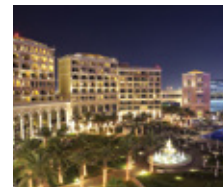

Al Qana offers a breath of fresh air with uninterrupted spectacular views across the waters to the Sheikh Zayed Grand Mosque and the nearby Memorial Park.

## The Project

*Creating a moment for people to re-connect with nature*

The National Aquarium is designed to provide live experiences, community engagement, and hands-on involvement in preserving the local biodiversity and heritage to build a more sustainable future.

Join us on a journey around the world and step into the mind of a marine biologist when you get up close and personal with the 46,000 magical creatures in our aquarium!

Through its strategic partnership with the Environment Agency – Abu Dhabi (EAD), The National Aquarium ambitions to create the largest and one of the most innovative rehabilitation schemes of its kind to protect wildlife in the emirate of Abu Dhabi.

The partnership includes the creation of a first of its kind specialized animal rescue vehicle to respond to wildlife emergencies and offer first aid while transporting injured animals to The National Aquarium to receive assessment, treatment, and eventually be released.

## UAE's Natural Treasures

### *Discover Pearls Of Wisdom*

To pay homage to our historic roots, we're taking you on a deep-dive into the magical world of Arabian pearl fishing.

Witness first-hand how oysters and pearls are naturally formed in nature while exploring the rich diversity of animals that inhabit the coasts of the Eastern Arabian Peninsular.

## Red Sea Wreck

### *Unearth Red Sea Ruins*

They have the ability to explore some of the most incredible treasures of the sea. To give you a sense of their world,

we're taking you on an underwater exploration through a shipwreck where you can come face-to-fin with hundreds of fish and coral typically found in the Arabian Red Sea.

## Atlantic Cave

### *Explore Hidden Treasures*

Discover what really lives beneath the ocean. Right across the world cave formations have been created over millions of years through erosion and plate movements.

Explore this mystic underwater world to see some of the most amazing creatures hiding in the tiniest nooks and crannies, all looking to find a safe habitat to breed their youngsters.

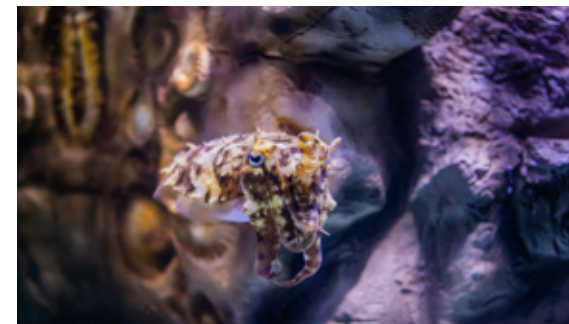

## The Sub

### *Submerge Your Senses*

We'll take you below the surface so you can discover the operations of a submarine while exploring the magical world beneath the waves.

Not only will you witness marine life in its natural habitat, but you might be lucky enough to spot our Nautilus! A Nautilus is a marine mollusk - a distant cousin to squids, octopuses and cuttlefish however lives inside its hard, exterior shell.

## Ring of Fire

### *Feel The Force Of Nature*

The Ring of Fire is the longest chain of volcanoes in the world located in the outskirts of the Pacific Ocean. While the force of a volcano has the power to destroy human settlements,

it also enriches the earth with nutrients and other chemical components. Explore the fascinating marine life that can be found in this constantly-changing ecosystem.

## Ocean Magic

### *Breathe Beneath The Waves*

As beautiful as they are, oceans can be very dangerous and complex systems that force marine animals to be highly adaptable.

Discover the marine life that thrives in these ever-changing environments amongst this awe-inspiring underwater world.

## Frozen Ocean

### *Experience An Arctic Blast*

Even though this region is basically a giant ice cap, it's home to a diverse range of animals, particularly marine life. It also plays an important role in helping the planet maintain its temperatures for animals to breed and thrive happily.

Come and discover how animals such as Arctic sea birds and fish live in these icy waters.

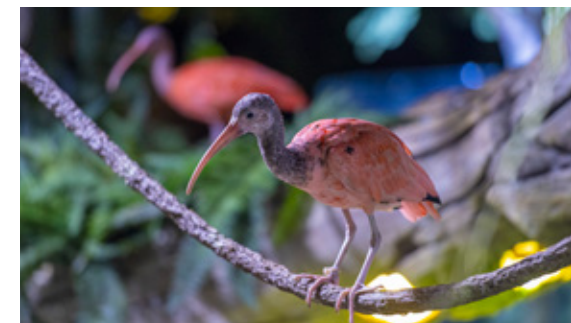

## The Flooded Forest

### *Wander Through The Rainforest*

From the breathtaking canopies, tropical birds and crisp, clean air, Rainforests play an important role in our planet's ecosystem. In fact,

they are home to over 50% of the world's biodiversity and yet cover only 2% of the Earth's surface. Step inside the forest floor and discover the many mysteries our rainforests have to offer.

## Bu Tinah Island

### *Delve Into An Island Oasis*

With its shallow waters, seagrass beds, tall mangroves and extensive coral reefs, Bu Tinah Island is where a diverse range of marine life thrive.

Explore island life in all its glory while supporting the Environmental Agency of Abu Dhabi to spread the importance of island conservation.

## Professors Aquademy

"In the end, we will conserve only what we love; we will love only what we understand, and we will understand only what we are taught."

*Baba Dioum*

Conservation Education is at the heart of everything we do. That's why we offer a variety of exciting programs for schools, visitors, and the community, so we can educate as many people as possible about our incredible underwater world.

For Public and Private schools in the UAE, we offer our Professor's Aquademy, a program catered to children from kindergarten right through to high school. Inspired by our animal ambassador "Professor" our friendly water monitor lizard – this program educated kids about the different environments and the importance of learning how we can preserve them for future generations.

We take a hands-on, highly interactive approach to keep kids intrigued and inspired by allowing them to 'meet and greet' the animals and play games designed for engaged learning.

Ready to take them on a journey around the world without leaving Abu Dhabi?

## Wildlife Rescue

*Our Mission is to Rescue, Rehabilitate and Release the Native Wildlife in the Abu Dhabi Emirate*

The Wildlife Rescue program is a joint collaboration between the Environment Agency – Abu Dhabi & The National Aquarium of Abu Dhabi.

Our mission is to Rescue, Rehabilitate and Release native wildlife in the Abu Dhabi Emirate; we aim to ensure a world of natural treasures for future generations.

The Environment Agency – Abu Dhabi calls on the community to report injured wildlife or environmental emergencies, through the Abu Dhabi Government Contact Centre at 800 555
